

JOB OPENING: WEB DEVELOPER

POSITION TITLE:	Web Developer	EXPERIENCE LEVEL:	01
POSTING DATE:	April 14, 2009	REPORTS TO:	Creative Director, Owner
START DATE:	Immediately	TERM:	Fulltime

We're looking for someone that loves to create, loves to learn, and loves to work with other talented people in a relaxed and rewarding small studio environment. We take a design-centred approach to everything from online games to corporate websites to desktop applications. We aren't like an agency and we're not a tech company. We're something a little different. In our small studio, each person has opportunity to make a difference in our projects and our studio life. Each person affects the company dynamic. Each person plays an important role. Everybody in our studio matters.

JOB DESCRIPTION

Working onsite at the mod7 studio, the Web Developer operates closely with our designers and other technical team members to creatively execute our award-winning communication, education, and entertainment properties. We want someone who is fanatical, professional, humble, and self-motivated.

The person we want thinks AJAX is the second coming of buttered bread. They know that 1 pixel matters. They also embrace CSS frameworks (Blueprint), PHP frameworks (Zend), JavaScript frameworks (MooTools), and AJAX frameworks (Google Web Toolkit) and talk about them at parties to the chagrin of everyone else.

DUTIES

- * Doggedly use valid *XHTML/CSS* mark-up and *JavaScript* to turn supplied designs into reality.
- * Passionately develop web and internet-enabled applications using appropriate scripting technology (*PHP/MySQL* is essential).
- * Happily process graphics and layouts using *Adobe Photoshop™* and *Illustrator™* under the direction of our Creative Director and Interactive Designer.
- * Cunningly create themes, skins, templates for a wide variety of CMS's including WordPress, Drupal, Expression Engine and others.
- * Create *UI* prototypes and design specifications with reckless abandon.
- * Research and adopt of new technologies as required by project and studio needs.
- * Handle change requests and break fixes without complaint or whininess.

REQUIREMENTS OF POSITION

- * 1 to 2 years design/development experience as a web developer or related.
- * Experience with developing applications in PHP, MySQL, JavaScript.
- * Experience writing semantic and valid XHTML/CSS markup.
- * Experience creating/implementing CMS themes.
- * Able to learn and apply new skills quickly.
- * Willing to do what it takes to get the job done.
- * Dependable, able to work in a team.
- * Able to think through programming challenges and apply methodology.
- * Diploma or Post-Secondary degree in design, Computer Science or related is nice.

To apply, send 1) cover letter, 2) resume, 3) URL(s) of work samples to: careers@mod7.com.
